First Hawaiian, Inc. Reports Second Quarter 2021 Financial Results and Declares Dividend

HONOLULU, Hawaii July 23, 2021--(Globe Newswire)--First Hawaiian, Inc. (NASDAQ:FHB), ("First Hawaiian" or the "Company") today reported financial results for its quarter ended June 30, 2021.

"We are pleased with our financial performance during the second quarter, which was driven by the strong return of tourism and pickup in the local economy," said Bob Harrison, Chairman, President and CEO. "We had good activity in the loan portfolio, solid growth in fee income and credit quality remained excellent. In addition, we benefitted from the improved outlook for the local economy with the release of \$35 million from our reserves for credit losses."

On July 21, 2021 the Company's Board of Directors declared a quarterly cash dividend of \$0.26 per share. The dividend will be payable on September 3, 2021 to stockholders of record at the close of business on August 23, 2021.

Second Quarter 2021 Highlights:

- Net income of \$86.7 million, or \$0.67 per diluted share
- Total loans and leases decreased \$196.5 million, or 1.5%, versus prior quarter
- Total deposits increased \$701.4 million, or 3.5%, versus prior quarter
- Recorded a \$35.0 million negative provision for credit losses
- Board of Directors declared a quarterly dividend of \$0.26 per share
- Repurchased \$22.4 million of stock under share repurchase program

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements reflect our current views with respect to, among other things, future events and our financial performance. These statements are often, but not always, made through the use of words or phrases such as "may", "might", "should", "could", "predict", "potential", "believe", "expect", "continue", "will", "anticipate", "seek", "estimate", "intend", "plan", "projection", "would", "annualized" and "outlook", or the negative version of those words or other comparable words or phrases of a future or forward-looking nature. These forward-looking statements are not historical facts, and are based on current expectations, estimates and projections about our industry, management's beliefs and certain assumptions made by management, many of which, by their nature, are inherently uncertain and beyond our control. Accordingly, we caution you that any such forward-looking statements are not guarantees of future performance and are subject to risks, assumptions, estimates and uncertainties that are difficult to predict. Further, statements about the potential effects of the COVID-19 pandemic on our businesses and financial results and conditions may constitute forward-looking statements and are subject to the risk that the actual effects may differ, possibly materially, from what is reflected in those forward-looking statements due to factors and future developments that are uncertain, unpredictable and in many cases beyond our control, including the scope and duration of the pandemic, actions taken by governmental authorities in response to the pandemic, and the direct and indirect impact of the pandemic on our customers, third parties and us. Although we believe that the expectations reflected in these forward-looking statements are reasonable as of the date made, there can be no assurance that actual results will not prove to be materially different from the results expressed or implied by the forward-looking statements. A number of important factors could cause actual results or performance to differ materially from the forwardlooking statements, including (without limitation) the risks and uncertainties associated with the ongoing impacts of COVID-19, the domestic and global economic environment and capital market conditions and other risk factors. For a discussion of some of these risks and important factors that could affect our future results and financial condition, see our U.S. Securities and Exchange Commission ("SEC") filings, including, but not limited to, our Annual Report on Form 10-K for the year ended December 31, 2020 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2021.

Use of Non-GAAP Financial Measures

We present net interest income, noninterest income, noninterest expense, net income, earnings per share (basic and diluted) and the related ratios described below, on an adjusted, or "core," basis, each a non-GAAP financial measure. These core measures exclude from the corresponding GAAP measure the impact of certain items that we do not believe are representative of our financial results. We believe that the presentation of these non-GAAP financial measures helps identify underlying trends in our business from period to period that could otherwise be distorted by the effect of certain expenses, gains and other items included in our operating results. We believe that these core measures provide useful information about our operating results and enhance the overall understanding of our past performance and future performance. Investors should consider our performance and financial condition as reported under GAAP and all other relevant information when assessing our performance or financial condition.

Core net interest margin, core efficiency ratio, core return on average total assets and core return on average total stockholders' equity are non-GAAP financial measures. We compute our core net interest margin as the ratio of core net interest income to average earning assets. We compute our core efficiency ratio as the ratio of core noninterest expense to the sum of core net interest income and core noninterest income. We compute our core return on average total assets as the ratio of core net income to average total assets. We compute our core return on average total stockholders' equity as the ratio of core net income to average total stockholders' equity.

Return on average tangible stockholders' equity, core return on average tangible stockholders' equity, return on average tangible assets, core return on average tangible assets and tangible stockholders' equity to tangible assets are non-GAAP financial measures. We compute our return on average tangible stockholders' equity as the ratio of net income to average tangible stockholders' equity, which is calculated by subtracting (and thereby effectively excluding) amounts related to the effect of goodwill from our average tangible stockholders' equity, which is calculated by subtracting (and thereby effectively excluding) amounts related to the effect of goodwill from our average total stockholders' equity. We compute our return on average tangible assets as the ratio of net income to average tangible assets, which is calculated by subtracting (and thereby effectively excluding) amounts related to the effect of goodwill from our average total assets. We compute our core return on average tangible assets as the ratio of core net income to average tangible assets. We compute our core return on average tangible assets as the ratio of core net income to average tangible assets. We compute our tangible stockholders' equity to tangible assets, each of which we calculate by subtracting (and thereby effectively excluding) the value of our goodwill. We believe that these measurements are useful for investors, regulators, management and others to evaluate financial performance and capital adequacy relative to other financial institutions. Although these non-GAAP financial measures are frequently used by stakeholders in the evaluation of a company, they have limitations as analytical tools and should not be considered in isolation or as a substitute for analysis of our results or financial condition as reported under GAAP.

Tables 14 and 15 at the end of this document provide a reconciliation of these non-GAAP financial measures with their most directly comparable GAAP measures.

⁽²⁾ Core return on average tangible assets is a non-GAAP financial measure. We compute our core return on average tangible assets as the ratio of core net income to average tangible assets, which is calculated by subtracting (and thereby effectively excluding) amounts related to the effect of goodwill from our average total assets. For a reconciliation to the most directly comparable GAAP financial measure for core net income, see Table 14, GAAP to Non-GAAP Reconciliation.

⁽³⁾ Core return on average tangible stockholders' equity is a non-GAAP financial measure. We compute our core return on average tangible stockholders' equity as the ratio of core net income to average tangible stockholders' equity, which is calculated by subtracting (and thereby effectively excluding) amounts related to the effect of goodwill from our average total stockholders' equity. For a reconciliation to the most directly comparable GAAP financial measure for core net income, see Table 14, GAAP to Non-GAAP Reconciliation.

⁽⁴⁾ Tangible book value is a non-GAAP financial measure. We compute our tangible book value as the ratio of tangible stockholders' equity to shares outstanding. Tangible stockholders' equity is calculated by subtracting (and thereby effectively excluding) amounts related to the effect of goodwill from our total stockholders' equity. For a reconciliation to the most directly comparable GAAP financial measure for core net income, see Table 14, GAAP to Non-GAAP Reconciliation.

Revolving Loans Converted

⁽¹⁾ Other credit quality indicators used for monitoring purposes are primarily FICO scores. The majority of the loans in this population were originated to borrowers with a prime FICO score.

⁽²⁾ Other credit quality indicators used for monitoring purposes are primarily internal risk ratings. The majority of the loans in this population were graded with a "Pass" rating.

⁽³⁾ No FICO scores are primarily related to loans and leases extended to non-residents. Loans and leases of this nature are primarily secured by collateral and/or are closely monitored for performance.
